

Meritor Parts

Meritor Parts - Meritor is a premier international dealer that is proudly founded on a one hundred year tradition of service and quality. They concentrate on various integrated systems, modules and components to original equipment manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the requirements of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their international operations. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor encourages collaboration and innovation among a team of knowledgeable experts.

By just employing future focused staff, Meritor strongly thinks these top-caliber workers would be able to quickly adapt to changing environments and demonstrate the commitment and performance required to be able to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all their workers various chances for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of drivelines, axles, suspension and braking systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their international engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group which is devoted to ensuring optimum progress at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 countries.

The supplier development network is particularly situated to support new business development. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each part of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability in each region. The team is likewise included transactional Green Belts who apply Six Sigma tools to business techniques and implement lean techniques.
